

Temple of art and design

Rita Lampen

The Essex Art and Design Show is now in its 4th year and the annual event continues to draw an eager public who savour the opportunity to buy an original piece of work and a chance to meet the artists and designers themselves. The historic setting of Cressing Temple Barns, near Braintree, in Essex is the venue for this year's show which has grown in

size, allowing over 70 artists and designers the chance to showcase and sell their own work.

Among the media on display are fine art, photography, ceramics, jewellery, textiles and contemporary craft.

This year younger audiences will have the opportunity to participate in a number of arts activities at the Kids Arts Zone which has been created by Little Havens Children's Hospice.
